

Complaint made by Mrs. George, French citizen.

At 3.30 p.m. on the 17-11-35, Mrs. George, French citizen, wife of Mr. Henri George — Secretary to the French Consular Court at Shanghai, residing with her husband in apartment 603 Embankment Building, came to this Station accompanied by Commandant Le Free, residing at No. 7 Rue Chapal.

Mrs. George reported that she suspected her house-boy of having administered some poison — or noxious substance into their food, thereby causing her husband to become sick.

C.D.S. 122 and the undersigned accompanied Mrs. George and Commandant Le Free to Apartment 603 Embankment Building, where the house-boy — Yue Sim Ping (于小兵) was interviewed and later brought to Hongkew Station for enquiries.

Mrs. George — who does not speak English very clearly — made a very rambling statement in the presence of her husband and Commandant Le Free which the undersigned had great difficulty in understanding owing to the disjointed and excitable manner in which the story was told, and the language difficulty.

The informant stated that, on the evening of the 14-11-35, her husband suddenly became very sick with abdominal pains shortly after having partaken of food cooked by herself and served at table by the above named house-boy.
